Your Partner for the EMTEL ® Emergency Telephone worldwide

An emergency telephone number for dangerous goods transportation is mandatory in numerous countries including the USA and Canada, and it is required by many air carriers (IATA). According to regulation 1907/2006/ EC, this emergency number must be included on any safety data sheet.

GBK's Emergency Telephone Number (EMTEL), offers 24/7 immediate telephone assistance, if there occur problems during transport or handling of dangerous goods/hazardous materials. This comprehensive service ensures assistance not only in the case of spillage, fire or contamination, but also medical advice for toxicological incidents. It also includes consultation around the appropriate disposal measures to be taken.

Our EMTEL service comprises the following benefits for you:

- Access to a professional emergency call centre (24 hours / 7days /365 days per year)
- Emergency telephone number in 190 languages
- Fulfillment of your legal obligations
- Realisation of all airline and shipping company requirements
- Medical advice in case of poisoning
- Additional service in the USA: waste management
- Fulfillment of regional requirements on an emergency service
- Comprehensive support in case of accidents with chemicals
