TECHNOLOGY IN MOTION

GIFTWRAP SEMI-AUTO

- Industrial ultrasonic sensors to measure box sizes.
- Cuts paper to correct length and width from a roll.
- Repeat mode.
- Automatic scrap deflector.
- 6-roll capacity for paper selection.
- Hand-wrapped appearance.
- A large, industrial quality touchscreen with Windows-based system.
- Single phase electrical supply.
- Large work area.
- Optional ribbon dispenser.

A semi-automatic computer-guided system that is able to wrap a variety of box sizes by utilising sensors to measure the boxes and cutting paper to size.

Roll sizes 254mm to 762mm, with a maximum of 914mm on special order.

Minimum wrap size is a product that fits 178mm x 178mm sheet.

The **Giftwrap Semi-Auto** gives your boxes a hand-wrapped appearance, improving sale appeal greatly. Its computer-controlled design allows you to wrap a wide range of box sizes in a short amount of time.
