Frank W Legart, MSc

Click Chemist | Molecular scientist

F W Legart has demonstrated his scientific knowhow and put his creative ability to the test of having been an acknowledged product developer of sustainable and authentic cosmetic and dermo-pharmaceutical concepts for more than two decades. Being in the beauty business for 30+ years, the serial entrepreneur and company founder has been providing his expertise for the big players in this field of industry and leading pharmaceutical enterprises globally. Being a committed lecturer, an approved safety assessor, author and photographer, he is always on a new mission of beauty – in keeping with his motto of life, “only who cherishes the most elemental can apprehend the exceptional.”
