

TECHNOLOGIES FOR YOUR BUSINESS

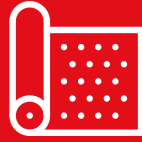

Let's finish complex geometries

FINISHING SOLUTIONS

Making Your Life Better.

Cefla Finishing

designs and builds
technological solutions
for finishing the surfaces
that we live in contact
with every day.

Probably everywhere,
**definitely in items with
complex geometries.**

COATING
LINES

INDUSTRIAL
DIGITAL PRINTING

LAMINATION
& WRAPPING

Eyewear

FASHIONABLE AND FUNCTIONAL ACCESSORIES LIKE SUNGLASSES FOLLOW FAST-CHANGING TRENDS. FOR THE FINISHING OF EYEWEAR FRAMES, QUALITY AND HOMOGENEITY OF THE COATING, FLEXIBILITY TO ADAPT TO FASHION TRENDS, AND A SIMPLE AND EFFICIENT PROCESS ARE TOP PRIORITIES.

Helmets

SMART, CUSTOMISED SOLUTIONS. HOMOGENEOUS COATING AND A SIGNIFICANT REDUCTION IN PAINT CONSUMPTION FOR ALL TYPES OF HELMETS AND OTHER SPHERICAL ITEMS ARE GUARANTEED, WITH MAIN FOCUS ON USER-FRIENDLINESS AND EFFICIENCY TO CONTAIN COSTS AND ENSURE FLEXIBILITY IN THE PRODUCTION PHASE.

Shoes and footwear

SYSTEMS FOR DRYING THE GLUE APPLIED BETWEEN SHOE SOLES AND UPPERS, TO ENSURE A FIRM AND LONG-LASTING GRIP.

Perfume bottles

THE QUALITY OF A CONTAINER FINISH CAN INCREASE THE PERCEIVED VALUE OF THE CONTAINED PRODUCT. POLISHED, COLOURED, RESISTANT SURFACES TO PRESERVE THEIR AESTHETIC VALUE OVER TIME.

Pots and pans

TECHNICAL AND AESTHETIC REQUIREMENTS MUST OFTEN COEXIST, AS IS THE CASE WITH KITCHEN UTENSILS.

NON-STICK SURFACE TREATMENTS AND SCRATCH-PROOF FINISHES ARE ESSENTIAL TO ENSURE DURABILITY AND USABILITY OVER TIME.

Parts of durable goods

TAILOR-MADE SOLUTIONS FOR COATING PLASTIC COMPONENTS OF HOUSEHOLD APPLIANCES OF ALL SHAPES AND SIZES. TV FRAMES, FREEZER HANDLES AND WASHING MACHINE DOORS, FOR AN EFFICIENT, FUNCTIONAL FINISH.

Vases

FROM FLAMING TO DRYING,
AUTOMATIC FINISHING SYSTEMS
THAT INCREASE PRODUCTIVITY
AND EFFECTIVENESS,
AS WELL AS AESTHETIC
QUALITY AND STRENGTH.

Switches and plates

AS TRADITIONAL ITEMS OR ITEMS INTEGRATED IN HOME AUTOMATION SYSTEMS, LIGHT SWITCHES ARE MADE OF METAL OR PLASTIC AND REQUIRE A SUITABLE FINISH ACCORDING TO THE DECORATION STYLE: GLOSSY OR MATT, AND RESISTANT AT THE SAME TIME.

Wall lights, ceiling lights and pendants

WHATEVER ITS SHAPE, A LIGHT SOURCE ALWAYS ATTRACTS THE EYE. FOR THIS REASON, A FLAWLESS FINISH IS ESSENTIAL. THEY COME IN A VARIETY OF SHAPES AND USUALLY HAVE METAL SURFACES. THE FINISHING LINE WILL HAVE TO BE SPECIALLY DESIGNED TO OPTIMISE EFFICIENCY AND QUALITY.

Wall decorations

FROM PLAIN FRAMES TO SPECIALLY SHAPED ITEMS MADE OF HIGH DENSITY FOAM POLYSTYRENE AND COATED WITH SPECIAL RESINS. UNUSUAL MATERIALS NEED A CONTROLLED FINISHING PROCESS ABLE TO RECEIVE THE DESIRED DECORATION WITHOUT ALTERING THE CHARACTERISTICS OF THE PRODUCT.

Designer chairs

WHEN IT COMES TO THE SHAPE OF A CHAIR, THE POSSIBILITIES ARE ENDLESS. WHETHER IT IS THE BODY, THE SEAT OR THE LEGS, A SYSTEM TO COAT EACH PART REQUIRES SPECIFIC KNOW-HOW. THE RESULT MUST LIVE UP TO THE DESIGN.

Designer furniture

SINUOUS SHAPES, CORNERS OR IRREGULAR GEOMETRIES: DESIGNER FURNITURE CALLS FOR A PROCESS THAT GUARANTEES QUALITY AND RESISTANCE TO DAILY USE.

FROM SANDING OF THE EDGES TO COATING EVERY PART WITH PAINT IN AN INTEGRAL CYCLE THAT INVOLVES THE BEST TECHNOLOGIES ON THE MARKET.

Components for firearms

KEYWORDS: STYLE AND STRENGTH. FLAWLESS FINISHES, ACCURATE FROM 0 TO 100 GLOSS, WITH SOFT TOUCH EFFECT WHICH IMPROVES THE GRIP ON THE WEAPON AND PREVENTS IT FROM SLIPPING.

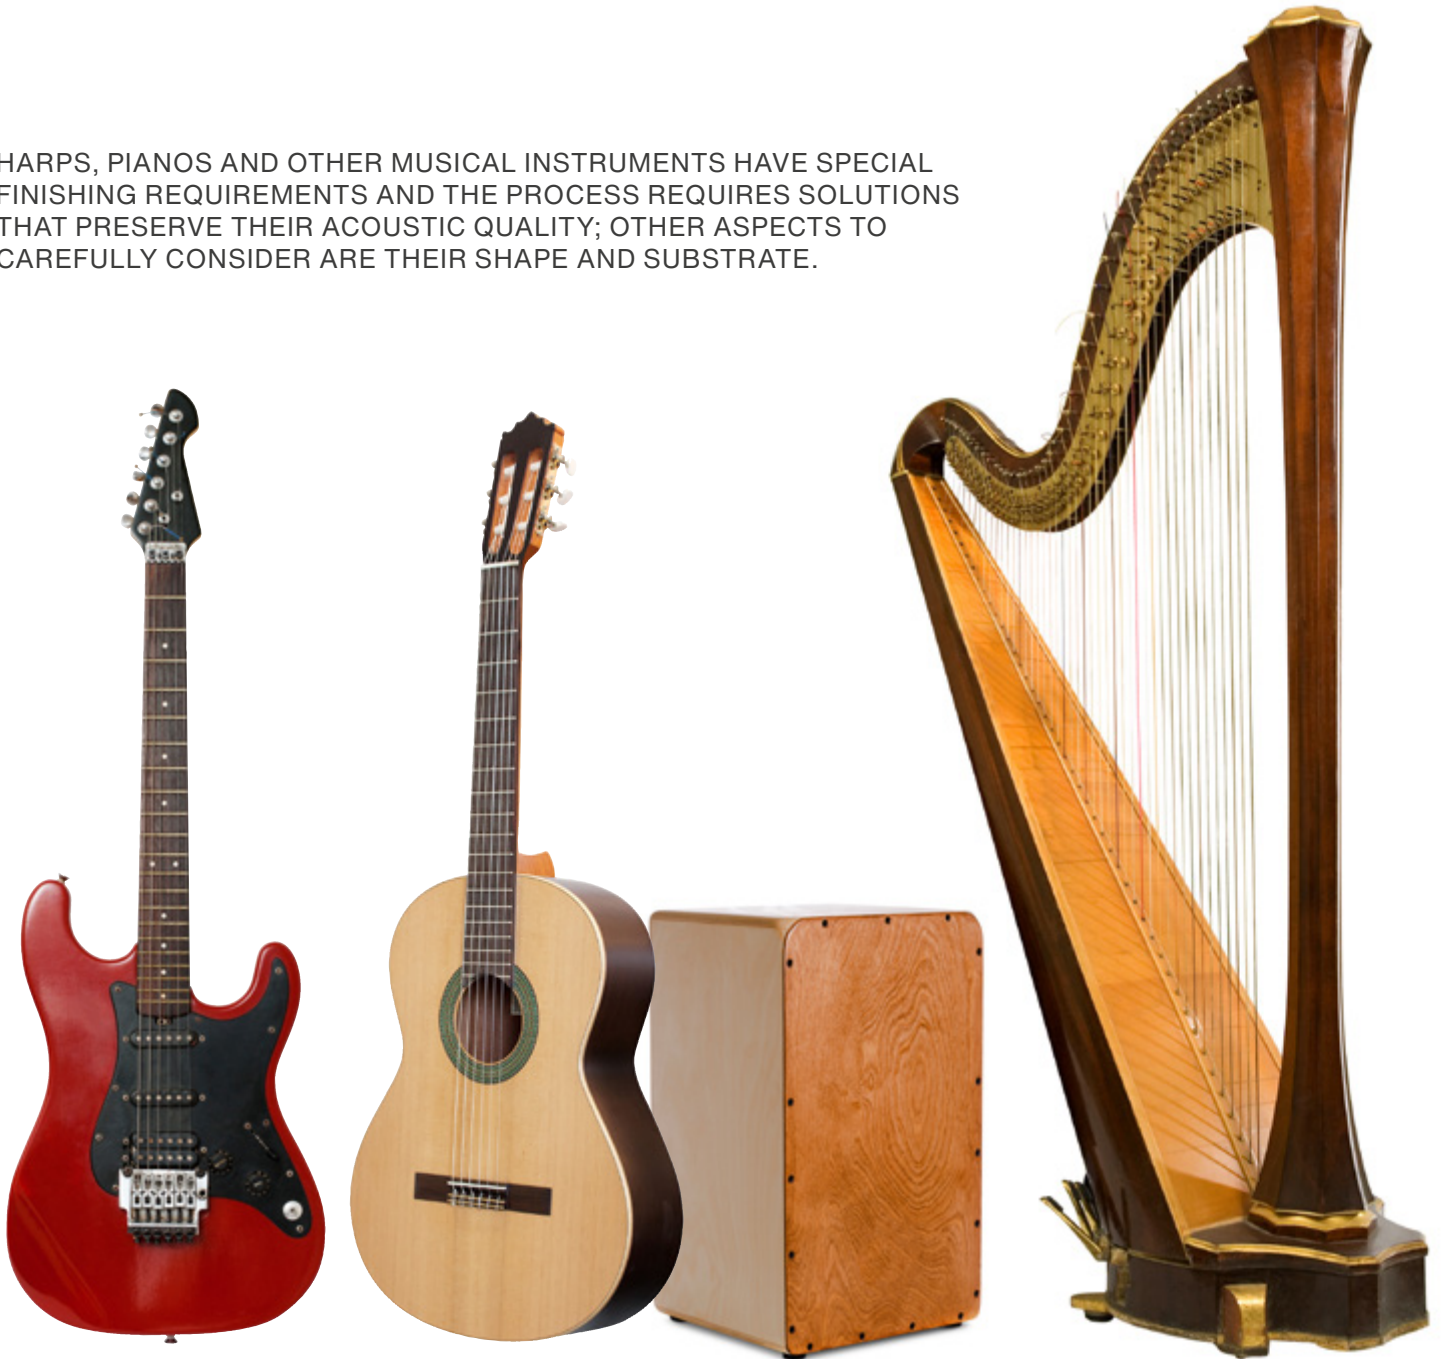

WOODEN ELEMENTS WITH A DEFINITE THREE-DIMENSIONAL SHAPE, OFTEN MAKING THEM TRICKY TO COAT. IN THIS CASE, AUTOMATION AIMS TO MINIMISE THE REQUIRED MANUAL WORK AND TO ENSURE SUPERIOR AND CONSISTENT QUALITY.

Musical instruments

HARPS, PIANOS AND OTHER MUSICAL INSTRUMENTS HAVE SPECIAL FINISHING REQUIREMENTS AND THE PROCESS REQUIRES SOLUTIONS THAT PRESERVE THEIR ACOUSTIC QUALITY; OTHER ASPECTS TO CAREFULLY CONSIDER ARE THEIR SHAPE AND SUBSTRATE.

Coffins and funeral caskets

AN ELEGANT, MATT, GLOSS FINISH, OR A FINISH ENHANCING WOOD GRAINS FOR A PRECIOUS AND DIGNIFIED EFFECT. INFINITE GEOMETRIES WHICH REQUIRE CAREFUL SETTING OF LINE PARAMETERS.
