- Antioxidant and anti-aging;
- Excellent emollient;
- Stimulation of cell renewal and healing;
- Prevention and treatment of stretch marks;
- Prevention and treatment of dry skin;
- Anti-inflammatory properties;
- Hair conditioning.

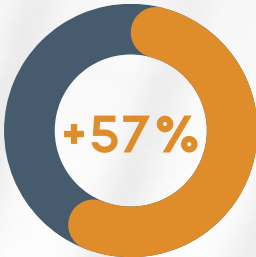

Blend of vegetable oils and butters native from Amazonia biodiversity encapsulated in organic lipid nanoparticles. NS AmazoniaEco Moist is an exclusive product, composed by 100% natural and organic ingredients, that deeply hydrates the skin, being indicated for stretch marks and dry skin prevention. It has in its composition the Brazil nut oil, with antioxidant and anti-aging activities, and pracaxi oil, with excellent emollient and cell renewal properties, in addition to tucumã and ucuuba butters, responsible by the high moisturizing power of the active.

The nanometric size allows a better skin penetration of actives, and the formation of a protective barrier over skin, reducing transepidermal water loss and helping the skin hydration.
